

WHITEPAPER

DOGRMY TOKEN

HOLD DOGRMY AND EARN DOGE REWARDS

Project Info

DogeArmy Token (\$DOGRMY) is a Dogecoin reward token for DOGE fans.
Our goal is to create a community where every doge fan can come together.
We reward our holders through automatic \$DOGE distribution for holding \$DOGRMY.

Liquidity Pool

03

7% To All Holders

Holding Doge Army Tokens has many benefits. There are no additional requirements to qualify for these rewards. There will be no lock period for your tokens, you can cash out whenever you want. Your earnings will grow linearly with your share of tokens, so more tokens means more rewards. Besides, your rewards per token will increase together with the daily volume.

2% Marketing & Development

We strive for a sustainable business model so we can grow our community and remain evermore attractive to our holders. Therefore, we will accumulate 2% of each transaction to continuously develop and improve our token and community. These funds will be used for ongoing marketing campaigns to create more awareness of our token and our community, improving our infrastructure, maintaining the team and much more.

1% To Liquidity Pool

1% out of each transaction is contributed toward the automatically generating liquidity pool in order to minimize the slippage.

Pancakeswap locked liquidity

PancakeSwap is the primary liquidity provider platform for (BSC network). The liquidity allows automatic and instant decentralized trading of your tokens without waiting for slow P2P transfer. PancakeSwap liquidity is an essential component of the BSC tokens. Regrettably, it has been used in a well-known scam, “rugpulls.” The concept of liquidity locking was introduced to avoid this scam. To give more trust to the community we decided to lock the pool on PancakeSwap for 3 years.

Roadmap

Phase 1

- ✓ PancakeSwap Listing
- ✓ Liquidity lock for 3 years
- ✓ Marketing Campaign
- Website Update
- ⌚ Contract Audit
- ⌚ Reward Tracker
